[Beacon Power's Rebirth Enlivens Energy Storage Sector](#)

Beacon Power's Rebirth Enlivens Energy Storage Sector Ken Silverstein | Jun 19, 2013 Nearly two years ago, Beacon Power had the wind knocked out of it. But it has emerged from bankruptcy, all after the energy storage company had won a loan guarantee provided by the Obama administration. Now, on Friday, it will install its first storage device at a pending Pennsylvania-based project. Balancing ...

Study of Low-
Voltage Ride-
Through
Performance for
Wind Power
Generation with
Doubly Fed
Induction
Generator
Summary The
introduction of
wind power
generation is
increasing rapidly.
The ratio of wind
power generation
to the total
generation
capacity is
becoming higher
and higher. When
a phase-to-phase
fault occurs in the

power system, the
frequency of the
power system is
lower due to
disconnection of
wind power
generation with
doubly fed
induction
generators (DFIG).
Therefore, the
power system
might ...
